

Kamlesh kumar

Volunteer at Slush 2025

Kamlesh kumar was a part of the Founders Day team at Slush during the fall of Slush 2025. They were responsible for:

- Delivering 7-star customer service to the biggest core audience of Slush, the founders
- Solving unexpected problems together with the Volunteer Lead at the event
- Executing a variety of tasks to make sure operations run smoothly at Founders Day

We were all impressed by Kamlesh kumar and the way they handled their tasks as a Volunteer. We were especially satisfied to see their responsibilities being executed autonomously, efficiently and reliably. Even in hectic situations, we could trust Kamlesh kumar to take care of their duties and our volunteers with a positive attitude. We are grateful for the inclusive and uplifting team dynamic Kamlesh kumar succeeded in creating. No wonder our attendees praised the event and the customer service. We would be delighted to collaborate with Kamlesh kumar in the future and wish to recommend them for taking on additional responsibilities.

Slush is a student-driven, not-for-profit movement with the mission to help and create the next generation of groundbreaking entrepreneurs. Today, Slush is the most founder-focused event on earth, bringing together founders, investors, executives, and media for a curated gathering of 13,000 attendees.

The event would simply not happen without our 1,700 enthusiastic volunteers, who create the Slush Magic.
